Kenyon College.

The Institution now known as Kenyon College was removed from Worthington, Ohio, to Gambier in the year 1828. It had been incorporated, and a Constitution adopted by the Convention of the Diocese of Ohio, under the name of "The Theological Seminary of the Protestant Episcopal Church in the Diocese of Ohio." By a supplementary act of the Legislature, the President and Professors of the Seminary were empowered to act as a Faculty of a College and confer degrees in the Arts and Sciences.

After many changes of plan and some amendments to the Constitution, the final result was the establishment of three institutions—a Theological Seminary, a College, and a Preparatory School, each independent of the others, but all under the control of the Bishop of the Diocese and the Board of Trustees. The Bishop was ex-officio the President of the Board and President of the Theological Seminary. He had the power of nominating the President of the College, and during the recesses of the Board he acted as Prudential Committee, with full power to decide all secular matters arising at such times.

In August, 1891, a new Constitution took effect, having received the assent of the Convention of the Diocese of Ohio, of the Board of Trustees, and of the Bishops of Ohio and of Southern Ohio.

By the new Constitution the corporate name was changed from "The Theological Seminary of the Protestant Episcopal Church in the Diocese of Ohio" to "KENYON COLLEGE." The three heretofore independent institutions were consolidated into one institution, of which institution the President of Kenyon College is the head. The Bishop of Ohio has gladly resigned most of his peculiar powers and privileges. He will preside alternately with the Bishop of Southern Ohio at the meetings of the Board of Trustees, and they retain a joint supervision of the spiritual interests of the institution.

Instead of three independent institutions, there is one institution which includes three departments, or schools: A Theological school, Bexley Hall; a Collegiate school, Kenyon College, and a Preparatory school, Kenyon Military Academy.

It is believed and expected that under the new Constitution the success of Kenyon College will be increased and her usefulness promoted. That however well Kenyon may have done in the past, in the future she will do still better. The increased interest that has been aroused among the Alumni and the friends of the College is proof that the change in the Constitution was in the right direction, and has not been made in vain.

Gambier, the seat of Kenyon College, is a village of about five hundred inhabitants, on the Cleveland, Akron & Columbus railroad, a little east of the center of the State of Ohio, fifty miles from Columbus, five miles from Mt. Vernon, and one hundred and twenty miles from Cleveland. The site was chosen by Bishop Chase, after careful investigation, for natural beauty of surroundings, healthfulness of climate, and freedom from influences that might prove detrimental to the physical and moral welfare of the students. The plateau on which the College and village is situated rises about two hundred feet above the valley of the Kokosing river, which flows around it on three sides, and which furnishes in the proper season excellent facilities for bathing and skating.

The altitude of the College above the sea level is more than one thousand feet. Free from the objectionable qualities of the climate of the lake shore and of the Ohio valley, there is no spot in the State where the climate is more genial and healthful.

COLLEGE GROUNDS.

These consist, first, of the College Park, which contains seventy-five acres. This is made up of the beautifully shaded plateau, on which stand the College buildings and the professors' houses, with the well wooded hill sloping on one side directly down to the Kokosing river, and on the other to level ground, which furnishes an excellent field for base ball, foot ball, and other athletic sports. Second, the grounds connected with Bexley Hall, about five hundred yards north of the College

Park, which form a well shaded park of about five acres in the highest part of the village. Third, of the grounds connected with the Kenyon Military Academy. These grounds, about half a mile from Kenyon and a quarter of a mile from Bexley Hall, comprise about sixty acres. They afford large stretches of lawn, ample play grounds, and pleasant walks, as well as gardening, pasture, and meadow lands.

BUILDINGS.

At the southern end of the plateau, facing north, stands the massive stone building known as *Old Kenyon*. It has three stories and a high basement, and contains sixty rooms, mainly used as dormitories. The building is surmounted by a spire, which contains the College bell. "The thick walls of solid stone seem built for centuries; yet within, the rooms are light and cheerful, and with the broad window seats and appropriate fittings, come as near, perhaps, to the ideal home of a student as could be desired for a four years' sojourn."

Starting from the front of Kenyon is a broad walk, arched with maples, extending directly north about half a mile to Bexley Hall, known as *the Path*. On the eastern side of the Path, a short distance from Old Kenyon, stands the building known as *Ascension Hall*. It was erected by the liberality of the parishioners of the Church of the Ascension, New York City. It is a beautiful structure of drab sandstone of Collegiate Tudor architecture. Here are the lecture rooms of the various professors, the physical and chemical laboratories, the astronomical observatory, the elegant halls for literary societies, the offices of the President and Treasurer, and eleven rooms for students.

A little further to the north on the west side of the Path, on slightly rising ground, stands Rosse Hall, built of sandstone, of Ionic architecture, about one hundred feet by seventy-five. It is the College Gymnasium, and is used at commencements, and at other times when room for large assemblies is required.

Still further to the north, on the east side of the Path, stands Hubbard Hall. This is a handsome two-story structure of light colored sandstone, with a well planned and lighted

interior. The lower story is used as the library proper, and the upper as a reading room. The walls are adorned with a number of valuable portraits, and engravings and photographs, the gift of Bishop and Mrs. Bedell. The building was erected by Mrs. Ezra Bliss, of Columbus, in memory of her brother.

Beyond Hubbard Hall, on the same side of the Path, and near the Park gates, stands the beautiful Church of the Holy Spirit—the College Chapel. It is a cruciform building of early English architecture, with tower and spire at the northwest angle of the transept. The tower is furnished with a clock and a chime of bells. The interior is beautifully decorated, the wood work is of solid oak, its windows are memorial gifts, and it contains a fine organ. The Chapel affords sitting room for the College students, the Divinity students, the cadets of the Military Academy, with the respective faculties and teachers.

At the north end of the Path, facing the south, stands, in its own park, Bexley Hall, the home of the Divinity school. It is a three-story brick building of Elizabethan architecture, a symmetrical and beautifully proportioned structure. It contains the Theological Library, a Chapel, lecture rooms for the professors, and rooms for the Theological students.

About a quarter of a mile southeast of Bexley Hall stand the buildings of the Military Academy. They consist of two large and substantial brick buildings. Milnor Hall and Delano Hall—the latter built through the liberality of the Hon. Columbus Delano, of Mt. Vernon—a Drill Hall and Gymnasium one hundred by fifty feet, and other accessory buildings. They front the south and command a wide sweep of the Kokosing valley. They are heated by steam, and provided with bath rooms containing both hot and cold water, and have the best system of drainage.

AIDS TO INSTRUCTION.

The Library and Reading Room are housed in Hubbard Hall, which is entirely devoted to this purpose. The Library contains about twenty thousand volumes, well selected and thoroughly classified, and supplied with a card catalogue which gives easy reference to any volume on any subject in the Library. The Library has lately been enriched by the gift of

the private library of Mr. John Lewis, of Mt. Vernon. It contains many rare, curious and valuable mathematical and astronomical works. Also by the gift of many costly illustrated works, by Bishop and Mrs. Bedell.

The Reading Room is supplied with a large number of the more important American and English and a few French and German weekly, monthly, and quarterly periodicals, literary and scientific, with abundance of Encyclopedias and Dictionaries, and with complete sets of the most important American and English magazines and reviews.

The Library and Reading Room are in charge of a Librarian, whose entire time is given to their care and management. They are open daily, except Sundays, from 10 to 12 A. M. and from 2 to 5 P. M., and on Saturdays from 7 to 9 o'clock P. M. There are devoted to the purchase of new books and binding, the proceeds of the Library fees, and the income of the Vaughan Library fund — five hundred dollars, and of the Hoffman fund — five thousand dollars.

The Library of the Theological Seminary contains more than nine thousand volumes. This has recently been increased by the gift by Bishop Bedell of his large and valuable private library. Additions are made from time to time, chiefly through the income of the Betts library fund.

Both the Libraries and the Reading Room are accessible to all connected with Kenyon College in any of its departments.

THE DEPARTMENT OF PHYSICS AND CHEMISTRY.

This department is well supplied with apparatus new and costly, including many instruments adapted to accurate measurements.

In electricity it includes galvanometers of many kinds, resistance coils, volt meters, ammeters, batteries of different sorts, a small dynamo, apparatus for magnetic measurements, apparatus for static electricity, induction coils, all the appliances for illustrating the modern applications of electricity, etc.

The optical apparatus includes spectroscopes, a spectrometer, one of Rowland's concave gratings, prisms of the best quality, a polariscope, models to illustrate polarized light, a

telescope, microscopes, a complete photographic outfit, a stereopticon, apparatus for solar projection, etc.

The acoustic apparatus includes a large number of pieces of Koenig's make, diapasons, organ pipes, a syren, a sonometer, etc., including a number of costly pieces to illustrate wave motion.

In other divisions of Physics and Chemistry the apparatus is equally good and varied.

Recently Laboratories have been provided for the student's practice in Physics and Chemistry.

The Physical Laboratory is a well lighted room supplied with furnace-heat, and all the conveniences for individual work. In the center of the room has been placed a substantial pier, insulated from the floor and walls of the building and resting on foundations of masonry. The top of this pier is of polished sandstone, and will be used in adjusting and testing delicate measuring instruments and for experiments in magnetometry. The department is supplied with micrometers, microscopes, balances, galvanometers, rheostats and all apparatus required for the performance of those experiments which are so well adapted to train the eye and hand in refined use.

The chemical laboratory includes a room for experimentation in general chemistry, and one for analysis. Both are heated by a hot-air furnace, and are supplied with water and gas, and contain desks and lockers suited to their purpose. Each student has his own desk, chemicals, set of glass-ware, etc. The department has a very complete stock of chemicals, Bohemian glass-ware, furnaces, fittings, etc., for experimentation in general organic and inorganic chemistry, and qualitative and quantitative analysis and blow-piping, including two analytical balances of great precision.

The College is able to maintain this department in a high state of efficiency, having at its disposal annually, for the purchase of books and apparatus, the interest of about eight thousand dollars, part of the Bowler endowment of the Bowler chair of National Philosophy and Chemistry.

THE DEPARTMENT OF MATHEMATICS AND ASTRONOMY.

The observatory has a telescope of five and one-fourth inches aperture, the object glass of which was made by Alvan Clark & Sons. This affords to students of astronomy the means of studying the most prominent celestial objects. The observatory is also supplied with a transit of two inches aperture and a sidereal clock. The Department of Astronomy has also a set of the well known Trouvelot astronomical drawings.

For the use of students in surveying, the Department of Mathematics has an excellent transit, a Y level and a compass, with the necessary appurtenances. A series of field exercises in the use of these instruments is given in connection with text-book study.

The income of one thousand dollars, the Delano Astronomical Fund, is used for the college observatory.

THE BEDELL LECTURESHIP.

A fund of \$5,000 has been given to the College by Bishop and Mrs. Bedell for the establishment of a lecture or lectures on the evidences of Natural and Revealed Religion, or the Relations of Science to Religion. These lectures are given bi-ennially on Founder's Day, the 1st of November.

BOWLER LECTURES.

A course of lectures is given annually by the Bowler Professor of Natural Philosophy and Chemistry on the Unity of Design in Nature. These lectures, like the Bedell lectures, are open to all connected with the institution.

PHYSICAL CULTURE.

Rosse Hall is used as a Gymnasium. It is supplied with a variety of apparatus, while its large area and high ceiling give room for exercises and drills of all sorts. It is open to students of the College and of Bexley Hall whenever the weather conditions are unfavorable for out of door exercise and at other times when desirable.

The athletic grounds are all that is needed, being as good as any in the State. The Ball grounds are at the foot of the hill below Old Kenyon. They are not only excellent for the

players, but the shaded hill-side affords a charming point of view for the spectators. The Tennis courts are good and are much used. The country around Gambier is of great beauty, and tempts to long walks, all who have any love for nature.

The College is a member of the Inter-collegiate Athletic Association of Ohio, and has taken part in all the contests, base ball, foot ball, tennis and other sports.

LECTURES.

A course of lectures and entertainments is gotten up every year under the patronage of the students. These lectures are intended to be entertaining and instructive and they help to vary the monotony of college life in winter.

ASSISTANCE.

Fees for tuition and room rent are remitted to sons of clergymen and to candidates for the ministry.

THE HIGH SCHOOL SCHOLARSHIPS.

Resolution passed June 26, 1890, by the Board of Trustees of Kenyon College:

Resolved, That a Free Scholarship in Kenyon College be offered each year to a male pupil of a High School in each county of the State. Such scholarship shall be granted upon the certificate of the Principal of the High School, which shall be based upon proficiency in studies, and upon good moral character.

Should there be applicants from more than one High School in the same county, who shall obtain the necessary certificates from their Principals, the Scholarship shall be given to the pupil passing the best competitive examination, held under the direction of the several principals.

The Free Scholarship includes room rent and tuition.

THE HENRY B. CURTIS SCHOLARSHIPS.

Hon. Henry B. Curtis, L. L. D., has granted to the Trustees of Kenyon College a fund for the aid of meritorious students by loans of money at a low rate of interest. The interest is

intended to meet only the risk of life, and is not to be greater than the average rate of life insurance.

Application for a Henry B. Curtis scholarship must be addressed to the Secretary of the College Faculty, Gambier, Ohio, and must state the applicant's name, residence, age, his father's name and the amount asked for. The application is to be understood as confidential with the Faculty. In making the selections, the Faculty will consider all evidence that may be obtained as to the applicant's character, ability and merit, including his examinations in school and college, and his record for punctuality and other good conduct; the best evidence being the Faculty's personal acquaintance with the applicant. The appropriations will be made only for a year at a time. The scholarship is intended to help the student, but not to cover all his expenses. The maximum for one student for one year will be one hundred and fifty dollars, but for a student's first year in college, seventy-five dollars. The sum appropriated will be paid in equal parts, one at the beginning of each college term. Upon each payment the student will give his promissory note for the repayment in five years from date, with interest at the rate of one and one-half per centum per annum.

THE ALFRED BLAKE SCHOLARSHIP.

Three perpetual scholarships in Kenyon College, owned by the Rev. Alfred Blake, were donated by Mrs. Blake to the College for the benefit of deserving students, to be annually nominated by the President and Faculty. These scholarships entitle the holders to free tuition.

THE FRENCH PRIZE SCHOLARSHIP.

This is a perpetual scholarship in Kenyon College, which was donated to the College by Mrs. Sarah A. M. French, to be held in trust by the trustees of the College, and to be awarded to a student of Milnor Hall standing highest in grade and deportment; other things being equal, preference to be given to a member of the Protestant Episcopal Church.

THE HANNAH MORE SCHOLARSHIP.

This scholarship was established in 1835 by a bequest of two hundred pounds made by Mrs. Hannah More. The income

is to be used by a student in the Theological Seminary. The fund now amounts to over twelve hundred dollars.

THE CLARK SCHOLARSHIP.

This scholarship was established by Mrs. Lucy Clark in 1835. The principal of the scholarship is \$1,071, the interest on which is given to a theological student.

THE MC'ILVAINE SCHOLARSHIP.

This scholarship in the Theological Department was founded by Bishop McIlvaine, through a bequest in memory of a beloved son, who was deeply attached to Gambier. The principal of this scholarship now amounts to over four thousand dollars. The incumbent of the scholarship is to be appointed by the Board of Trustees on a nomination by the Faculty; and he must have completed a classical course in college, and the studies of the first year in the course of the Theological Seminary.

THE AUSTIN BADGER SCHOLARSHIP.

This is a fund bequeathed by the late Austin Badger, of Medina, "to the Trustees of Kenyon College at Gambier, Ohio, the income to be expended in defraying the expenses of such dependent and needy student in said college, preparing for the ministry in the Protestant Episcopal Church, as said Board of Trustees may designate."

THE PLATT BENEDICT FUND.

By the will of the late Platt Benedict, of Norwalk, his store room in Whittlesry Block was left in trust to the Wardens and Vestry of St. Paul's Church in that city, the annual income of which should be paid over, "one-fifth part to the proper authorities of Kenyon College, to aid in the support and education of young men preparing themselves for the ministry in the Theological Department of said college."

THE ORMSBY PHILLIPS FUND.

This is a fund of a thousand dollars established by Mr. and Mrs. Bakewell Phillips, of Pittsburgh, to be loaned, from time

to time, without interest to a superior student for the ministry. Nominations to this scholarship are made by the President of the College.

THE LEONARD SCHOLARSHIP.

This scholarship is the gift of Wm. B. Leonard and his wife, Louisa D. Leonard, of Brooklyn, New York. Its income is for the support of a student of Theology at Bexley Hall, and is to be paid annually to the Faculty of the Theological Seminary, for the use of such students as they may designate.

TEACHING.

Students whose grade of scholarship is high, can often add to their resources by tutoring during the Junior and Senior years.

THE FOLEY PRIZES IN ENGLISH.

The sum of one hundred dollars, given by Florence, Edna and William Foley, in memory of their mother, Hannah Foley, is annually distributed to members of the Senior, Junior and Sophomore Classes for excellence in English Composition and Declamation. These prizes are awarded as follows: Two prizes of thirty dollars and twenty dollars, for the best two essays prepared by members of the Senior Class on assigned subjects; five prizes — one of twenty dollars, two of ten dollars and two of five dollars — for excellence in public speaking, to be tested by a Rhetorical Exhibition, given during Commencement week, in which eight speakers, appointed equally from the Junior and Sophomore Classes, compete, delivering original orations. The privilege of competing for these prizes may be withheld from any student who has failed to do acceptable work in the regular English course.

Board of Trustees.

- THE RT. REV. WM. A. LEONARD, D. D.....Ex-officio
Bishop of Ohio, President for the Year.
- THE RT. REV. BOYD VINCENT, D. D.....Ex-officio
Assistant Bishop of Southern Ohio.
- THEODORE STERLING, M. D., LL. D.....Ex-officio
President of Kenyon College.

Requirements for Admission.

I. ENTRANCE EXAMINATIONS FOR ALL COURSES.

(1) *Geography.*

(a) Physical Geography.

(b) Modern Political Geography.

(2) *History.*

Alexander Johnston's Shorter History of the United States or equivalent work.

(3) *Mathematics.*

(a) *Arithmetic.* In addition to the usual course in Arithmetic an acquaintance with the Metrical System of weights and measures is required, and a thorough study of Mental Arithmetic is strongly recommended.

(b) Algebra, through Radicals and Quadratics.

(c) Plane Geometry.

The use of simple drawing instruments should be taught in connection with Plane Geometry, and original construction and demonstrations required.

(4) *English.*

(a) English Grammar.

(b) English Composition. The candidate may be required to write a short essay correct in spelling, grammar, punctuation, division by paragraphs, and general expression. A subject will be assigned with which the candidate is familiar.

(c) A reasonable familiarity with English literature, prose and verse is expected. The following lists of readings required by the Association of New England Colleges will suggest to the student, both the amount and the nature of the work demanded.

In 1893: Shakspeare's Julius Cæsar and Twelfth Night, Scott's Marmion, Longfellow's Courtship of Miles Standish, the Sir Roger de Coverley Papers in the Spectator, Macaulay's second Essay on the Earl of Chatham, Emerson's American Scholar, Irving's Sketch Book, Scott's Ivanhoe, Dickens's David Copperfield.

In 1894: Shakspeare's Julius Cæsar and Merchant of Venice, Scott's Lady of the Lake, Arnold's Sohrab and Rustum, the Sir Roger de Coverley Papers in the Spectator, Macaulay's second Essay on the Earl of Chatham, Emerson's American Scholar, Irving's Sketch Book, Scott's Abbot, Dickens's David Copperfield.

In 1895: Shakspeare's Merchant of Venice and Twelfth Night, Milton's L'Allegro, Il Penseroso, Comus and Lycidas, Longfellow's Evangeline, The Sir Roger de Coverley Papers, Macaulay's Essay on Milton and on Addison, Webster's First Bunker Hill Oration, Irving's Sketch Book, and Scott's Abbot.

II. EXAMINATIONS FOR ADMISSION TO THE SEVERAL COURSES.

A. FOR THE CLASSICAL COURSE, leading to the degree of Bachelor of Arts.

(1) *Latin*.

- (a) Grammar, including Prosody.
- (b) Jones's Latin Prose Composition to Chapter X.
- (c) Cæsar, 4 books.
- (d) Cicero, 6 orations.
- (e) Virgil, 4 books of the *Æneid*.

(2) *Greek*.

- (a) Grammar, including Prosody.
- (b) Twenty lessons in Jones's Greek Prose Composition.
- (c) Xenophon's *Anabasis*, 3 books.
- (d) Homer's *Iliad*, 1 book.

Note — Goodwin's Grammar is used as a manual. Some simple reader or companion book of exercises should be used in connection with the grammar.

A hand-book, such as Baird's Classical Manual, should be studied in connection with Virgil and Homer. A good classical dictionary and a dictionary of antiquities are necessary to classical students.

(3) *Ancient Geography.*

(4) *Ancient History.*

(a) Greek History, Fyffe's Primer of Greek History is required.

(b) Roman History, Allen's History of the Roman People is recommended.

B. FOR THE PHILOSOPHICAL COURSE, leading to the degree of Bachelor of Philosophy.

(1) *Latin*, same as above for the Classical Course.

(2) *Ancient Geography*, same as above for the Classical Course.

(3) *Ancient History*, same as above for the Classical Course.

(4) *German.*

(a) Whitney's German Grammar, with especial attention to the idiomatic uses of interrogative, relative and indefinite pronouns, modal auxiliaries, the use of reflexive and impersonal constructions, the syntax of the conditional sentence, the object sentence, the result and purpose clauses, indirect discourse, the indirect question, the adjectival and the adverbial clauses.

(b) Meissner's practical lessons in German conversation; first 25 lessons, or equivalent work of the same nature.

(c) One hundred pages of Elementary Prose, Boisen's German Reader is recommended.

(d) One hundred pages in Buchheim's Deutsche Lyrik, or an equivalent amount of easy German verse.

(e) Vilmar and Richter's German Epic Tales told in prose.

(f) Fouque's Undine.

(g) Schiller's Der Neffe als Onkel.

C. FOR THE SCIENTIFIC COURSE, leading to the degree of Bachelor of Science.

(1) *Science.*

(a) Natural Philosophy, as much as is contained in Steele's Elements of Physics.

- (b) Chemistry, as much as is contained in Nichol's Abridgement of Eliot and Storer's Manual of Chemistry.
 - (c) Botany, as much as is contained in Gray's Lessons in Botany.
 - (d) Physiology, as much as is contained in Martin's Human Body (briefer course).
- (2) *History and Political Science.*
- (a) Universal History, as much as is contained in Myer's General History.
 - (b) English History, as much as is contained in Montgomery's Leading Facts of English History.
 - (c) Political Science, as much as is contained in John Fiske's Civil Government in the United States.
- (3) *German*, same as above for the Philosophical Course.

ADVANCED STANDING—Candidates for advanced standing are examined in the above studies, and in the studies that have been pursued by the class.

Students from other Colleges in good standing, presenting letters of honorable dismissal, may be admitted provisionally to such standing and on such terms as the Faculty may deem equitable in each case. Such candidates are required to present to the President a complete statement, duly certified, of the studies they have pursued and their proficiency therein. And this statement must be accompanied by a catalogue of the College from which they have come.

Candidates for admission must present testimonials of good moral character; and if they come from other Colleges, certificates of dismissal in good standing.

The regular examination for admission to College takes place on Tuesday preceding Commencement, beginning at 8:30 o'clock A. M. Another examination is held on the day before the opening of the Christmas term, at the same hour. Students may be examined for an advanced standing at any time before the commencement of the second term of the Senior year.

ADMISSION BY CERTIFICATE.

Any student applying for admission to the Freshman Class at the beginning of the Collegiate year will be admitted with-

out examination, provided he bring a satisfactory certificate from the Principal of a High School of any city in Ohio, or from the Principal of any reputable Preparatory School or Academy, that he has thoroughly done all the work prescribed in the catalogue for admission to the Freshman Class, and provided that the Principal will also state that, in his opinion, the applicant is able to maintain a good position in his class, and that he is of good moral character and habits.

All certificates must be made out on blanks prepared for the purpose, which will be furnished on application to the President, and must be mailed so as to reach Gambier before the opening of the Christmas term.

Teachers are requested not to give certificates unless clearly merited, but, in doubtful cases, to throw the responsibility on the Faculty.

ADMISSION WITHOUT GREEK OR GERMAN.

Graduates of High Schools of any city in Ohio, who lack preparation in Greek or German, can enter the Freshman Class, and opportunity will be given for them to begin either of these studies as College students, provided that, in addition to the requisites for admission as printed above, they are prepared to pass an examination in the following subjects: Algebra, to series including Logarithms; Solid Geometry, Botany, General History and Civil Government, and Physiology. Students who are not prepared to take their examination in these subjects may, *provided they are industrious and of good abilities*, by doing extra work, take these subjects in due course with the regular College classes.

Students may be admitted as special students, not candidates for a degree; provided their preparation is such that they can enter with advantage existing College classes, and also provided that their time can be fully and profitably occupied.

NOTE.—Numerals indicate the hours per week.

NOTE.—During the Junior year Hebrew, and during the Senior year Old and New Testament Introduction and Exegesis are taken as electives by students intending to study Theology.

Department of Latin.

PROFESSOR BENSON.

The Freshmen begin with the Eclogues of Virgil or with the Metamorphoses of Ovid. Special regard is paid to Prosody and the reading of Latin verse. About six weeks are so spent. Books used are Greenough's Virgil or Allen and Greenough's Ovid. The remainder of the first and the whole of the second term are devoted to reading the first and second books of Livy. Careful translation and thorough grammatical construction are objects aimed at. Greenough's edition is used.

The Sophomores read, in the first term, the First Tusculan of Cicero, the Somnium Scipionis and portions of the Laelius and of Cato Major.

The second term is given to the Odes and Epodes of Horace, special attention being given to Metres. Either Chase's or Maclean's edition is used.

The third term is spent upon the Satires and Epistles of Horace. Sight readings are held occasionally throughout the year.

In the Junior year, Latin is an elective study. The Germania and Agricola of Tacitus, the De Officiis of Cicero and Plays of Plautus and Terence, are read during the year. Occasional sight readings take the place of the prepared lessons.

Department of Mathematics and Astronomy.

PROFESSOR DEVOL.

Six terms of work in Mathematics, covering the Freshman and Sophomore years, are required of all college students. Of these six terms, two are devoted to Algebra, one to Solid Geometry, two to Trigonometry and its applications, and one to Analytic Geometry.

Students in the Scientific Course are required to continue mathematics through the Junior year, taking the Differential and Integral Calculus and a more extended course in Analytic Geometry. This third year in Mathematics may be taken by students in the Classical and Philosophical Courses as elective work.

Opportunity will be afforded to students in the Scientific Course to elect Geometrical Drawing, Descriptive Geometry, and further work in Surveying.

One term's work in Astronomy is required of students in all of the college courses.

The text books used in this department during the coming year will be the following :

Wells' College Algebra.

Wells' Plane and Solid Geometry.

Wells' Plane and Spherical Trigonometry.

Wentworth's Surveying.

Bowser's Analytic Geometry.

Bowser's Differential and Integral Calculus.

Young's General Astronomy.

Department of Greek Language and Literature.

PROFESSOR INGHAM AND MR. BUTTOLPH.

Greek is required of all candidates for the degree of A. B., during the Freshman and Sophomore years, and is offered during the Junior year as an Elective.

Goodwin's Greek Grammar, Goodwin's Greek Moods and Tenses and Liddell & Scott's Greek Lexicon are used as manuals throughout the course. The course will be changed somewhat from year to year.

I. Freshman year, first term: Select Oration of Lysias, Steven's text, three hours per week; Greek Prose Composition, Jones, one hour per week.

II. Freshman year, second term: Homer's Iliad, Seymour's text, three hours per week; Jones's Greek Prose Composition, one hour per week.

III. Freshman year, third term: Homer's Odyssey, Merry's Edition, Lectures on Ionic Dialect, three hours per week; Boise's Greek Syntax, one hour per week.

IV. Sophomore year, first term: Plato's Apology and Crito, Dyer's Edition, three hours per week; Greek Literature, one hour per week.

V. Sophomore year, second term: Demosthenes on the Crown, Tyler & Holmes' Edition, three hours per week; Greek Literature, Jebb's Primer, one hour per week.

VI. Sophomore year, third term: Antigone of Sophocles, D'Ooge's Edition, readings from Oedipus Tyrannus and lecture on Mythology, etc., four hours per week.

VII. Junior year, first term: Greek History, illustrated by readings from Herodotus, Xenophon, Thucydides and Minor Historians, four hours per week.

VIII. Junior year, second term: Agamemnon of Aeschylus, Sidgwick's Edition, four hours per week.

IX. Minor Greek Lyric Poets, Bergk's Anthologica Lyrica, lecture on Greek Archæology; four hours per week.

Department of Physics.

DR. STERLING AND PROFESSOR INGHAM.

I.—Four hours per week during the Junior Year are given to the study of Physics by the students in the Classical and Philosophical Courses, and four hours per week during the Sophomore Year by students in the Scientific Course.

The text books used are Dana's *Mechanics*, Stewart's *Physics* and Thompson's *Electricity and Magnetism*. The students are also required to provide themselves with Jones's *Examples in Physics*.

The text books will be supplemented by lectures, of which the students will be required to take notes, and all the important laws of Physics will be illustrated by the aid of abundant and excellent apparatus at the disposal of the Department.

II.—The course of Practical Physics is required of all candidates for the degree of Bachelor of Science, but is offered to other students as an Elective.

The course consists of personal experimentation in the Physical Laboratory, accompanied by lectures and recitations on methods of manipulation, the theory of instruments, and discussion of results, corrections and computation of errors.

The endeavor is not merely to train the eye and hand, nor to explain any mechanical device, but to inculcate a habit of orderly and scientific thinking.

The first term of the Junior Year is occupied with preliminary practice in the simple measurements of length, mass and time, followed by the mechanics of solids, liquids and gases, and thermometry and expansion.

The second term is a continuation of the first, taking up acoustics, optics, determination of wave length, interference, etc.

The third term is devoted to electricity and magnetism, together with the calibration of instruments.

The text books used are Glazebrook and Shaw's *Practical Physics*, Pickering's *Physical Manipulation*, Stewart & Gee's *Practical Physics*, Ganot's *Physics*, Thompson's *Electricity and Magnetism*, Chute's *Physics*, Tait on *Heat and Light*, and Louis Wright on *Light*.

Department of Chemistry.

PROFESSOR INGHAM.

I.—A course of one term in General Chemistry is required of all candidates for a degree. This course is taken in the first term of the Senior Year, and consists of recitations from the text book and from authorities cited by the instructor. The course is illustrated by occasional lectures, and by experiments before the class. In addition to this, the members of the class will perform most of the simpler experiments in the laboratory, under the supervision of the instructor. Five hours per week, including about twenty exercises in the laboratory. Text book, Remsen's Chemistry, advanced course.

II.—The courses in Chemistry for the second and third terms of the Senior Year are required of candidates for the degree of Bachelor of Science, and are open to other students as Electives.

During the first part of the second term a rapid review of experiments in General Chemistry will be made. Text book, Williams' Chemistry.

This will be followed by a course in Qualitative Analysis, Noyes' text book being used in preliminary practice in the separations, with Prescott, Johnson and Fresenius as manuals. Four exercises per week.

III.—The course during the third term will be one or the other of the following, as the majority of the class may select :

1.—A continuation of Chemistry (II.), including the determination of the more complex and of insoluble substances, analysis for poisons, sanitary analysis of water, with simple exercises in Quantitative Analysis. Text and reference books, O'Brine's Laboratory Guide, Fresenius' Quantitative Analysis, Plattner's Analysis and Sutton's Volumetric Analysis.

2.—Lectures and recitations in Organic Chemistry, together with practice in simple Organic Preparations and in Ultimate Analysis. The students will also review Chemical Literature. Remsen's Organic Chemistry, Thorpe and Fresenius' Manuals of Analysis.

The laboratory will be open to students of Courses II. and III. daily from 4 to 6 P. M.

Geology, Physiology and Botany are taught by Dr. Sterling. The text books used are LeConte's Geology, Martin's Human Body (advanced course) and Gray's Lessons and Manual.

Department of English.

PROFESSOR BRUSIE.

1. *Rhetoric*—A. S. Hill's *Rhetoric* is used as a text-book. The principles of composition are studied, and practical work is done in the preparation of essays, criticisms, etc., and in the rapid writing of themes and outlines in the class room. Reviews of books assigned by the instructor are required of students in this and the following course. Three hours a week during the first term, Freshman year.

2. The work of the preceding term is continued with a view to the acquirement of a clear and forcible prose style. Minto's *Manual of English Prose* is used in the class room, and selections from the authors treated in Part I. are critically examined. Three hours a week during the second term, Freshman year.

3. One hour a week during the third term, Freshman year, is devoted to the examination before the class of criticisms and reports on literary subjects assigned by the instructor.

4. At the beginning of each term a list of literary subjects is announced, from which each member of the Sophomore class selects one for original investigation. The result of this investigation is then embodied in a thesis, which must be in the hands of the instructor two weeks before the end of the term.

5. *English Literature of the Age of Elizabeth*, with introductory lectures on Early and Middle English. The works of Sidney, Spencer, Bacon and the Elizabethan Dramatists are studied. The plays of Shakespeare are, however, only incidentally touched upon in this course. Three hours a week during the first term, Junior year.

6. *English Literature of the Eighteenth Century*. This course consists of readings in the class-room from the principal

poets and prose writers of the period, with extensive outside reading in contemporaneous authors. Three hours a week during the second term; Junior Required; Senior Elective.

7. *English and American Literature*. Some one phase of the Literature of the present century is selected for investigation, and representative authors are critically read. Outside reading. Three hours a week during the third term; Junior Required; Senior Elective.

In courses six and seven the same authors will not be studied two years in succession. This will enable Seniors to elect work in these courses, and so devote two terms to the study of each one of these periods, if they choose to do so.

8. *History of English Literature*. Brooke's Primer with supplementary reading; reports on assigned topics. Two hours a week during the first term, Senior year.

9. *Shakespeare*. The critical study of selected plays according to the plan outlined in Moulton's *Shakespeare as a Dramatic Artist*.

10. *Milton*. An examination of his principal works, and a study of his character in its relation to the times in which he lived. Outside reading in contemporaneous authors.

11. *The English Novel*. A study of the origin and development of the novel, with extensive reading in the works of the great novelists.

12. *Early and Middle English*. Sweet's Anglo-Saxon Primer, Judith, and selections from Beowulf; Chaucer, Prologue, and selections from the Canterbury Tales.

During the second and third terms, two courses, chosen from 9, 10, 11 and 12, are given as Senior Electives; four hours week.

In connection with all the work of the Junior and Senior years frequent written reports on assigned topics are required.

Individual training in declamation is given to students during the Freshman year, and this work is continued in the Sophomore and Junior years by practice in the writing and delivering of orations.

Department of Modern Languages.

PROFESSOR GUTHRIE.

The courses in German and French are parallel, so that what is said of one will do for the other also, except that no previous preparation is required in French.

During the first year, which may be called the *Grammar Year*, the instructor will use English in the class room, but a course of oral prose composition and, later on, of conversation, will serve to familiarize the student with the spoken tongue, which he studies more or less as a dead language during the other recitations. Having learned, then, to co-ordinate sound with sense, in the second and third years the pupil will receive instruction in the German language, avoiding all translation and substituting paraphrase for it, to insure the instructor that what has been read has also been understood. It is hoped that by this method the student will acquire a feeling for usual idioms and a facility in understanding German without any process of mental translation. The second year will be devoted to the classic literature; the third to what is more difficult in it, and to a study of earlier poetry, with as much philology as will be necessary for a thorough appreciation of its merits.

It will be seen by consulting the schedule of the several courses, that the Bachelor of Science will have obtained such a practical acquaintance with both French and German as will allow the use of scientific and philosophic works in either language.

The course in Italian, being elective during the Junior year only, is intended to meet the long-felt want among students of literature of a brief introduction to Italian classic poetry, especially to Dante.

In the schedule of courses very few definite works are specified, as the reading will, in most cases, vary from year to year.

Schedule of Courses.

FRENCH.

FIRST YEAR.

Christmas Term — (a) Grammar Review, Easy Prose Readings; 3 hours every week.

(b) Oral Translations into French; 1 hour per week.

Easter Term — (a) Syntax, with exercises; 1 hour per week.

(b) Prose Readings; 2 hours per week.

(c) Conversation; 1 hour per week.

Trinity Term — (a) Selections from Classics in prose and verse; 2 hours, and 3 in alternate weeks.

(b) Exercises in Syntax and Dictation; 1 hour per week.

(c) Elements of French Literature History; 1 hour each alternate week.

SECOND YEAR.

Christmas Term — (a) Two Comedies of Molière; 3 hours per week.

(b) Sight reading of French comedies; 1 hour per week.

(c) Essay (in French); on French Comedy.

Easter Term — (a) A Tragedy of Corneille, and one of Racine; 3 hours per week.

(b) Sight reading in essays; 1 hour per week.

(c) Essay (in French); French Tragedy of the 17th Century.

Trinity Term — (a) A Tragedy of Voltaire and one of Hugo; 3 hours per week.

(b) Sight readings in standard novels; 1 hour per week.

(c) Essay (in French); on the Romantic Drama of France.

THIRD YEAR.

Christmas Term — (a) French Prose Style, studied in specimens from essays, histories, novels, aphorisms, etc; 2 hours, and 3 hours alternate weeks.

(b) Course in Historical Grammar; 1 hour each alternate week.

(c) Sight reading of standard works; 1 hour per week.

Easter Term — (a) Representative selections of Modern French poetry; 2 hours per week.

(b) Grammar and Syntax of Old French; 1 hour per week.

(c) Sight reading of contemporaneous Literature; 1 hour per week.

Trinity Term — (a) Anthology of Old French Literature, with specimens of Provencial; 2 hours per week.

(b) Sight readings of Criticisms on Old French Literature; 2 hours per week.

(c) Essay on the æsthetic value of Old French Literature (in French); 2,000–3,000 words.

GERMAN.

FIRST YEAR.

Christmas Term — (a) Grammar Review, reading in prose and verse; 3 hours per week.

(b) Oral translations into German; 1 hour per week.

Easter Term — (a) Syntax, with exercises; 1 hour per week.

(b) Prose Readings; 2 hours per week.

(c) Conversation; 1 hour per week.

Trinity Term — (a) Selections from Classics in prose and verse; 2 hours and 3 hours alternate weeks.

(b) Exercises in Syntax and Dictation; 1 hour per week.

(c) Elements of German Literature History; 1 hour each alternate week.

SECOND YEAR.

Christmas Term — (a) A tragedy of Schiller and drama of Lessing; 3 hours per week.

(b) Sight reading of light German Comedies; 1 hour per week.

(c) Essay (in German) on Schiller's Tragedy.

Easter Term — (a) A tragedy of Schiller and one of Goethe; 3 hours per week.

(b) Sight reading of critical and humorous essays; 1 hour per week.

(c) Essay (in German) on Goethe's Tragedy.

Trinity Term — (a) Goethe's Autobiography and Lessing's Laokoon; 3 hours per week.

(b) Sight reading in standard novels; 1 hour per week.

(c) Essay (in German) on the literary awakening of Germany, 18th Century.

THIRD YEAR.

Christmas Term — (a) Select German prose; 2 hours and 3 hours alternate weeks.

(b) Historical, German grammar; 1 hour each alternate week.

(c) Sight reading in standard works; 1 hour per week.

Easter Term — (a) Goethe's Faust, Parts I. and II.; 2 hours per week.

(b) Grammar and Syntax of Old High German; 1 hour per week.

(c) Sight reading from Contemporaneous Literature; 1 hour per week.

Trinity Term — (a) Anthology of Old German Literature; 2 hours per week.

(b) Sight reading of Criticisms on the same; 2 hours per week.

(c) Essay (in German) on Niebelungen Lied; 2,000–3,000 words.

ITALIAN.

Christmas Term — (a) Italian Grammar and Syntax.

(b) Easy Readings and Exercises in Syntax.

(c) Elements of Italian Literary History.

Easter Term — (a) A tragedy of Alfieri and six odes of Leopardi; 2 hours per week.

(b) Selections from Classic and Modern Literature; 1 hour per week.

(c) Sight reading in Goldoni's Comedies; 1 hour per week.

Trinity Term — (a) Dante's Vita Nuova and Inferno; 2 hours per week.

(b) Sight reading of Modern Italian Literature; 2 hours per week.

(c) Essay on Dante and Milton; 2,000–3,000 words.

Department of Mental and Moral Philosophy.

PROFESSOR PEIRCE.

A continuous course of study extending throughout the Junior and Senior years is offered in this department.

1. *Logic and Psychology.*

This course occupies three hours a week throughout the Junior year. The work is divided between the three terms thus:

(a) Christmas Term — Logic.

Jevons is used as a hand-book, and is made the basis for drill in the fundamental principles of the science, while the comparison of the views of various authors on certain special questions is insisted upon, lectures on the Theory of Logic are given from time to time by the instructor, and an endeavor is made to familiarize the student thoroughly with the foundation of the subject.

(b) Easter Term — Psychology.

The Briefer Course in Psychology of Professor James is used in the class room. In accordance with his arrangement, the Physiological basis of the science is first discussed, with constant illustrations and with experiments in the laboratory. A careful critical comparison of Prof. James with the older school of Psychologists is made at every step and independence of thought on the part of the student is made the prime object of the course.

(c) Trinity Term — Psychology.

Continuation of the work of the Easter Term, with special attention to the more abstract and theoretic questions of Psychology. At least one-third of the time is devoted to

laboratory work, each student being assigned a special subject for investigation which will require original thought in the determination of methods and the compilation of results.

2. *Philosophy and Ethics.*

This course covers the whole of the Senior year.

(a) Christmas Term — History of Philosophy.

A brief, but systematic and critical outline of Ancient, Mediaeval and early-Modern Philosophy is presented during this term. Seelye's translation of Schwegler's "History of Philosophy," is the text book used.

(b) Easter Term — Metaphysics.

On the foundation of the outline of the History of Philosophy furnished by the work of the Christmas Term a more thorough critical discussion of Metaphysical questions is pursued by the study of one or two particular systems of Philosophy. The course will probably vary somewhat from year to year, the systems to be studied being chosen from the most influential modern Philosophers. In 1894, the systems of Hume and Kant will form the subject of the course.

(c) Trinity Term — Ethics.

This course occupies four hours a week and is devoted to both the History and Theory of Ethics. Conscience, moral law, the will, and the ultimate ground of moral obligation are discussed historically and scientifically. A text book is used simply as the basis of suggestion for free discussion between instructor and student. Essays on ethical questions form an important factor in the work.

PSYCHOLOGICAL LABORATORY.

In order to secure a better and clearer understanding of the problems of Psychology, especially on their Physiological side, a laboratory furnishing ample opportunity for illustration and experiment in that department is at present in process of construction and will be ready for use in 1893. The apparatus will be sufficient, not only for regular class room experiments, but also for individual research on the part of the student.

Department of History and Economics.

PROFESSOR PEIRCE.

1. *Mediaeval and Modern European History.*

This course of three hours a week extends through the Sophomore year. Fisher's outlines of Universal History is made the basis of the work, and the private reading of historical authorities is an integral part of the course. Reports to the class are made from time to time by each student on his individual work, and on these reports every member of the class is liable to examination. The course seeks primarily to familiarize the students with the great historical authorities and to encourage original thought and criticism on historical questions. Lectures on special subjects are delivered from time to time. The period of history covered by the course extends from the fall of the Roman Empire and the Great Migrations to the present day, special attention being devoted to the present state and living problems of Europe.

2. *American Constitutional History.*

This course is offered during the first two terms of the Senior year and includes the whole period from the beginnings of the spirit of independence to the completion of reconstruction. Outside reading and private investigation of special subjects form the principal part of the course, Johnston's "American Politics" being the only book used in the class room. At least one paper on an extended study of some particular subject is required each term from every student.

3. *Economics.*

The Trinity Term of the Senior year is devoted to this course. During this limited time little more than a discussion of the elementary principles of the science is possible. A small text book, either Walker, Marshall or Andrews, is made a basis, and a large part of the recitation is devoted to debate on economic theory and its application to pressing social and industrial questions.

General Information.

RULES AND REGULATIONS.

MATRICULATION.

A student is admitted to matriculation when he has sustained a satisfactory probation. Matriculation gives accredited membership in the Institution, and entitles the student to an honorable dismissal, and is essential to his obtaining a degree. Each student, when matriculated, signs the following obligation:

We, the undersigned, pupils of Kenyon College, being now admitted to the rite of matriculation, do promise, each for himself:

I. That we will faithfully observe and obey the laws and regulations of the College, and all authoritative acts of the President and Faculty, so long as we are connected with the College; and as far as may be in our power, on all occasions we will give the influence of our good example and precept to induce others in like circumstances to do the same.

II. As faithful sons of Kenyon College, we will render to her as our Alma Mater, at all times and on all occasions, due honor and reverence, striving to promote her welfare by all proper means, and abstaining carefully from all things that may tend to impair her influence or limit her usefulness as a seminary of learning.

The matriculation fee is five dollars, payable upon entrance.

DEGREES.

The degree of Bachelor of Arts is conferred upon all students of the classical course in good standing who are approved at the final examination of the Senior class.

The degree of Bachelor of Philosophy is conferred upon all students of the Philosophical Course in good standing who are approved at the final examination of the Senior class.

The degree of Bachelor of Science is conferred upon all students of the Scientific Course in good standing, who are approved at the final examination of the Senior class.

The degree of Master of Arts is conferred on Bachelors of three years' standing, who have pursued a year's study in some branch of the Liberal Arts, under the direction of the College Faculty. For Bachelors graduated before 1883, the rule remains as published before that date.

TERMS AND VACATIONS.

The College year is divided into three terms — Christmas, Easter, and Trinity.

The Commencement is held on the Thursday before the last day of June.

There is a vacation of three weeks at Christmas, and of one week at Easter. For particular dates see calendar.

ATTENDANCE AND EXAMINATIONS.

Students not in their places at the opening of the term must show by written statement, from their parents or guardians, that the absence was necessary.

When a student is necessarily absent from Gambier, and in cases of clear physical disability, known as such at the time by the Faculty, absences may be excused by special Faculty action. A student is not held morally accountable for such absences, and they are not considered in estimating his deportment grade; but in deciding the question whether or not a student shall be examined at the end of the term, all absences are counted. Regularity in the performance of all College duties is important for the welfare not only of the individual student, but also of his class, and any student who persistently neglects these duties will be required to leave College.

It is deemed unnecessary to examine, at the end of the term, those students who are regular in their attendance upon their College duties, and who show by their class work that they are well qualified to proceed with the studies of the next term.

Any student who fails to make a term grade of seventy-five in any study is examined in that study at the end of the term.

Any student who is absent from more than one-tenth of the recitations in any study is examined in that study at the end of the term.

PUBLIC WORSHIP.

Students are required to attend Morning Prayers in the College Chapel; also the public services on Sundays and on the principal Holy Days of the Church.

DISCIPLINE.

The Faculty reserve the right to suspend or remove any student, whenever they believe that the interests of the College require such action.

BOARDING AND LODGING.

Rooms are provided in the College building in which students must lodge, unless they obtain permission from the President to room elsewhere. The College makes no special provision for board. This can be readily obtained in private families, or, at times, in clubs.

Each room is sufficiently large and convenient to accommodate two students. The rooms are provided with stoves, and are neatly painted and papered by the College. Students provide their own beds, furniture, light, books and stationery. Furniture can often be bought, as well as sold, at second hand, and the expense incurred by its use need not be great.

EXPENSES.

The College charges are: For Tuition, \$25.00 per term; for Room Rent, \$5.00 (at least) per term; and for Incidentals, \$10.00 per annum. A matriculation fee of \$5.00 is charged to every student at his entrance. There are some minor expenses, consisting of taxes voluntarily imposed by the students in their classes and their literary societies, and the expenses of graduation.

Each student must keep on deposit with the Treasurer \$5.00 as security for damages. Any balance is returned to the student at the close of each year.

When a student is absent for a term, and is afterward, upon examination, allowed to go on with his class, tuition is charged for the time of his absence. Room rent is charged when a room is reserved for a student.

Fuel (wood) is supplied by the agent of the College, and must be paid for in advance, at the same time with the bill for tuition. The charge is \$6.00 per term for the first and second terms, and \$3.00 for the third term; and twice these sums when a room is occupied by a single student.

If the student prefers to burn hard coal instead of wood, which is believed to be the better and more economical plan, he must provide himself with a stove. The use of soft coal is not allowed.

Board in private families costs from \$3.50 to \$4.00 per week. Clubs are sometimes formed, and the expense for board is thereby materially reduced.

Students are not allowed to board themselves in their rooms, as this practice has been found to be perilous to health.

The following estimate may be given of the annual expenses, not including expenses in vacation:

Tuition.	\$75 00	\$75 00
Room Rent	15 00 to	50 00
Incidentals	10 00	10 00
Fuel	12 00 to	30 00
Board	100 00 to	152 00
Washing	15 00	25 00
Lights	2 00 to	5 00
Library Fee	3 00	3 00
	<u>\$232 00</u>	<u>\$350 00</u>

Other incidental expenses, such as books and stationery, furniture, expenses in societies, traveling expenses, etc., vary according to circumstances, and the character and habits of the individual student.

The College bill must be paid in advance, according to the following rule of the Trustees:

"All students shall be required to pay their regular term bills in advance. The Treasurer's receipt shall be required by the President before he shall sign a certificate of matriculation, or, after the first term, before the student shall attend recitations."

* These Theological Electives cover the greater part of the work of the Junior Year in the Theological Course.

General Information.

ADMISSION.

Any candidate for Priest's Orders in the Protestant Episcopal Church of the United States, with full qualifications according to Title I, Canon 4, Section 2, may be received as a student of the Seminary; and any other person who may give sufficient evidence of a fair moral and religious character, and of such literary qualifications as will enable him successfully to pursue Theological studies. Applicants for admission are requested to address the Dean.

MATRICULATION.

Every student, on being admitted to full standing, must subscribe the following declaration in the Matriculation Book of the Seminary:

"We, the subscribers, students of the Theological Seminary of the Protestant Episcopal Church, in the Dioceses of Ohio, do solemnly promise, with reliance on Divine Grace, that we will faithfully obey the laws and pursue the studies thereof, endeavor to promote the reputation and interests of the Seminary, and make daily efforts, by pious reading, self-examination, and secret prayer, to cultivate all religious and moral dispositions and habits, and grow in those graces which should characterize the Christian and Minister of the Cross."

SEMINARY YEAR.

The year begins on the first Thursday in October, and closes the last week in June. Vacations coincide with those of the College Course, as stated in the Calendar.

Course of Study.

JUNIOR CLASS.

Hebrew — Harper's Elements of Hebrew and Introductory Method. Reading from Historical Books of the O. T.
Old Testament Introduction and Old Testament History.
Harmony of the Gospels.
New Testament Introduction.
Ecclesiastical History of the First Four Centuries.
Liturgics — Recitations and Lectures.
Lectures on Homiletics; writing of Sermons. Exercises in Elocution.

MIDDLE CLASS.

Hebrew — Harper's Elements of Hebrew Syntax.
O. T. Exegesis — Poetical Portions of the Pentateuch, and Psalms.
N. T. Exegesis — St. Paul's Epistles.
Ecclesiastical History — Mediæval Period.
Christian Evidences.
Dogmatic Theology.
Ethics.
Liturgics.
Homiletics. Exercises in Elocution.

SENIOR CLASS.

O. T. Exegesis — Prophetical Books of the Old Testament.
New Testament Exegesis — St. Paul's Epistles.
Ecclesiastical History — Reformation and Post-Reformation Period. History of the American Church.
Dogmatics — Lectures, and Browne on the Thirty-nine Articles.
Ecclesiastical Polity and Canon Law.
Christian Ethics.
Liturgics.
Pastoral Theology and Homiletics.

THEOLOGICAL ELECTIVES.

Special attention is called to the fact that a course of Theological Electives has been arranged for students in Kenyon College, by means of which the greater part of the work of the Junior Seminary year is done during the Junior and Senior years in College. The student in this way obtains his A. B. degree in course, and shortens his Seminary course, after leaving College, from three years to two. The ground which these electives cover may be ascertained by consulting the College Schedule.

LECTURES.

In addition to lectures by the professors, the Bishops of Ohio and Southern Ohio, and the Bowler Professor of the Collegiate Department, lectures will be given during the year by the Rev. George Hodges, D. D., of Pittsburgh, Pa., the Rev. W. M. Brown, Archdeacon of the Diocese of Ohio, on "Anglo-Catholicism in the Seventeenth Century," and others.

EXAMINATIONS.

A public examination of each class is held previous to the Annual Commencement, and certificates are awarded to those who, on the final examination, are found to have satisfactorily pursued the full course of study.

DEGREES AND HOODS.

1. All examinations for degrees will be conducted by the Faculty on Tuesday preceding Commencement week, and on Tuesday preceding the first Thursday in October.

2. The degree of B. D. will not be conferred on any candidate who is not in Priest's Orders; but graduates of a Theological school may take the required examination at any time before or after their Ordination to the Diaconate, and receive the degree at the Commencement following their advancement to the Priesthood. The examination for the degree of B. D. will be both oral and written, and will embrace the following subjects: In Exegesis, Messianic portions of the Old Testament, the Gospels, and one of St. Paul's Epistles, all in the original; in Ecclesiastical History, the First Three Centuries

and the English Reformation; in Dogmatic Theology, Soteriology, and the Doctrine of the Sacraments; in Liturgics, the Book of Common Prayer.

3. Candidates for the degree of D. D. must be graduates of an incorporated College or a Theological School, and must have been at least ten years in Priest's Orders. They must present an original essay in Latin or Greek on some subject connected with Theology. They must also, in the presence of the Examiners, write two theses in English on subjects from Ecclesiastical History and Dogmatic Theology, assigned them at the time of the examination, and they must be prepared to read in the original and comment upon selected portions of the Old and New Testament.

4. In exceptional cases, the degree of D. D. may be conferred *honoris causa* upon a Bishop or Priest of the Church who has distinguished himself as an author in theological literature.

5. The Hoods adopted by this Seminary are of the Oxford shape; that of Bachelors of Divinity of black silk, lined with violet silk; and that of Doctors of Divinity, of scarlet cloth, lined with white silk.

EXPENSES.

No charge is made for instruction, room rent, permanent furniture, or use of Library. Text books and movable furniture (such as bedding, towels, etc.,) are to be provided by students.

Aid will be given to properly qualified students, by scholarships, or by the Joint Education Committee of the Dioceses of Ohio and Southern Ohio.

Board (38 weeks) costs from.....	\$ 114 00	to	\$ 133 00
Fuel, from	15 00	to	20 00
Washing, from.....	15 00	to	20 00
Lights, from	3 00	to	5 00
Total, from	\$ 147 00	to	\$ 178 00

PRIZES.

The "Pierre Jay Prize" of one hundred dollars is awarded to the student presenting the best essay on the subject of Foreign Missions. This prize is given by Miss Elizabeth Clarkson Jay, of New York City.

The "Van Nostrand Prizes" are six in number. Four of these, consisting each of books to the value of ten dollars, will be conferred by the four professors for distinguished excellence in the work of their respective departments. The other two, consisting each of books to the value of five dollars, will be conferred by the Faculty upon the two students who shall excel in preaching extempore and written sermons, respectively.

LIBRARY.

The Library has been enlarged during the year by the gift of the valuable library of Bishop Bedell, and now contains about nine thousand volumes. Additions are made from time to time, chiefly through the income of the "Charles D. Betts Library Fund." The students also have access to the excellent Library and well-equipped Reading Room of the College.

SERVICES.

There is daily service, morning and evening, and Holy Communion on Sundays, Holy Days, and every Thursday, in the Seminary Chapel. The students are appointed in turn to read the lessons for the day.

BISHOP BEDELL MISSIONARY SOCIETY.

The Society, in which all the students are members, meets once a month to listen to an essay on some field of Missionary work, a biography of some Missionary, and a resume of noteworthy events bearing upon the subject.

Preparatory School;

Kenyon Military Academy

Kenyon Military Academy.

The studies are arranged to accommodate three classes of boys. The Classical Course prepares for the Collegiate classical department. The Semi-Classical substitutes German for Greek, and prepares for the Philosophical Course. The Scientific Course prepares for the Scientific Course and for any scientific school and the Government schools at West Point and Annapolis, and is intended also to meet the wants of boys who do not intend to go to College, but who leave school to enter upon the active business of life.

The Rector and his family, with the masters and cadets, occupy the same buildings and form one household.

An elegant gymnasium, 50 x 100 feet, was completed in 1889. It has been supplied with apparatus, under the direction of Dr. Sargent, Director of the Hemenway Gymnasium at Harvard College. Under an experienced teacher of gymnastics, regular physical training in the gymnasium is prescribed for all cadets during the winter months.

The military drill secures to the cadets regular and systematic exercise. Besides securing healthful and agreeable exercise, it tends to give an erect carriage and good manners; and it promotes habits of order and obedience, important elements of success both at school and in after-life.

The cadets attend daily services of prayer at the Academy, and the public religious worship on Sunday at the College Church. On Sunday afternoon there is either a half hour's study of the Bible or a lecture on some religious subject.

It is a very common mistake to send boys who are too young, to be subjected to temptation, to the preparatory department of some college where the pupils room about in a large town, and enjoy at too early an age the privileges of

college students. This system has the merit of being cheap. The pupils receive very little personal oversight, and they pay for little.

While this system is quite common west of the Alleghenies, in the older states the conclusion has generally been reached that young boys require a closer supervision than this system provides.

At a good training school the pupils live in the school building, and are under charge of experienced masters. In the evening they study in the school room, under the direction of an experienced teacher. The advantages of this system can hardly be overestimated.

It is aimed to provide here a school where, under influences that tend to the development of Christian character, boys will receive efficient and careful instruction and training, intellectual and moral.

TERMS AND VACATIONS.

The scholastic year is divided into three terms. The first term begins on the third Wednesday in September. There is a vacation of three weeks at Christmas, and one of one week at Easter. The year closes on the fourth Thursday in June. Cadets are received only for the entire year, or the remainder of it, if it has begun. No deduction will be made on account of withdrawal or other absence, except for an absence of more than six weeks on account of sickness, when six dollars a week will be refunded for the time lost.

SCHEDULE OF FEES.

Tuition, Board, Washing (1½ dozen), Fuel and Lights for the School Year.....	\$ 450
Payable at Entrance....	\$ 225
Payable at Beginning of Second Term.....	225
	<hr/> \$ 450

A fee of five dollars is required on entrance for medical attendance for the year. This practically is an insurance against any large medical bills, as it enables us to contract with a physician to visit the school and care for the sick every day.

★ An itemized statement of account will be rendered at the end of each term.

No money will be advanced for clothing, except on a written order of parent or guardian.

Wilful damage to school property is charged to the perpetrators, if known; otherwise, it is assessed upon the whole school.

All bills not paid promptly are subject to sight draft, without notice.

Cadets who remain at the Academy during vacation are charged at the rate of seven dollars a week, and they are subject to such regulations as are deemed necessary.

All checks should be made payable to the order of H. N. Hills, Treasurer.

UNIFORMS.

Two suits, a dress and a fatigue, similar to those worn at West Point, have been adopted for the Academy. These suits should be procured from the Academy tailor, that there may be no variation in shape or color. The cost of the two uniforms is forty dollars, and of the cap and helmet five dollars and a half.

ADMISSION.

Catalogues and blank forms of application for admission to the Academy may be obtained from the Rector.

All communications, concerning the Academy, should be addressed to LAWRENCE RUST, Rector.

Regents.
